PROJECTS

Intelligent Vehicle Alert System for Drowsy Driver using VisionTransformer (Python,HTML,CSS,Javascript,SQL)
- Drowsy driving is responsible for one out of every four car accidents. Driving while drowsy is a dangerous combination of driving and tiredness. The most terrifying aspect is that drowsy driving isn't merely falling asleep behind the wheel
- When a driver is not paying full attention to the road, drowsy driving can be as simple as a momentary episode of unconsciousness. There are numerous techniques to detect drowsiness
